

# NEW! For Firefighters Ultimate Breacher Tool BRO-UBT-29F-CR (Chrome)

**BROCO**

## The Essential Breaching Tool for First Responders!

Designed to be the essential all-in-one tool for First Responders, the Broco Ultimate Breacher Tool (UBT) combines four tools in one: Sledge, Pry, Ram and Rake.

The newest UBT is designed specifically for firefighters. The fork handle adds lock and chain breaking and hinge ripping capability and makes inward door prying easier.

This UBT is chrome plated for high visibility and easily carried hands free with the included quick-detach sling.

When used with the Broco Jimmy as a wedge, this is the UBT that can let one person do it all!

### The Sledge

The UBT sledge head is machined to fit the pry tool and handle. The sledge is used as a hammer to break, bend and open. Used with another UBT or Halligan to set a pry tip deeper in the gap.

### The Door Ram

Swing the UBT across the body as a ram striking with power and without slippage.

### The Rake

A glass rake has been incorporated to the underside of the pry tool for clearing glass after breaking windows.

### Hands Free Carry With a Single Point Sling

An effective tool must be accessible to the operator. Broco's Ultimate Breacher Tool has a sling cup set into the top of the head for easy carrying using a single point quick detach sling.

### The Pry Tool and Lock Breaker

The fork is forged and the pry head is cold cut from AR500 armor plate. The UBT's pry tip is tapered, angled and strong! The 1.25" width allows it to be used as a gapping tool.
