

BROCO®

MILITARY, TACTICAL,
FIRE & RESCUE

THE GAPPER™ BACKPACKED ELECTRIC HYDRAULIC SPREADER

New from Broco® – the forced entry leader

- Lightweight
- Compact
- Easy to operate
- One hand control for on/off and go/stop
- Automatically retreats when powered off
- Adaptable to other hydraulic tools
- Spreading force of 3000 psi (1.5 tons)

Includes:

Portable 24V battery powered hydraulic pump assembly, CF-3 spreader head with hose swivel and quick connect, operational hose and battery charger. Also includes a lightweight manual pump and 10' hose.

A remote pendant with adjustable lead (up to 5') controls operation and shows real time battery charge.

The **GAPPER™** Backpacked Electric Hydraulic Power Pack with CF-3 (Crow's Foot) Spreader hydraulic spreader assists in opening all types of inward and outward opening doors. It is ideal for metal doors and security gates.

The new backpacked power pack allows one operator to work faster, easier and quieter.

The 24V battery powered hydraulic micro-pump operates from many positions. It does not matter whether the pack is being worn or laying on the ground.
